foundation.

here

for and which they're still missing.

'My Badge Collection' shows your children which topics they have collected badges

These topics are key in building a solid math

explore it!

They get excited through interactive

games introduce math topics like:

Data Handling & Algebra.

Teachers can use our online system to send

students their math assignments and tests

school campus

A constantly growing collection of Flash

Numbers; Measures; Shapes & Space;

start by picking a topic... ...now you've entered the 'mathworld.'

Your children can start by working on the topics assigned to their grade level. As they progress new, more advanced topics will open up for them automatically.

Practice lets your children sharpen their understanding of a new topic. They can do the practice before they challenge the topic.

Challenge is a timed quiz on a topic. Your children can see how fast they can correctly answer 30 questions.

proof of their skill.

Now they're ready to move on to more challenging topics.

Need to make the screen or font size bigger? Try pressing F11.

mathworld

Allows your children to practice the math skills that they've learned by working on problems for each toplc.

They can earn iiPOINTS from 'Smart Practice' and 'Topic Challenges.'

They will continue to learn a little more every day.

91 topics

SmarthMathPractice covers 91 topics which include most of the learning objectives in any grade 1 to 6 math curriculum.

CHALLENGE all 91 topics COMPLETE 91 badges

Each badge has a color corresponding to one of the 5 major math dimensions:

Numbers; Measures; Shapes & Space ; Data Handling & Algebra.

step 1: pick your level

Step 2 : pick your topic

Every topic has its learning objectives detailed.

If your children come across an unfamiliar topic they can just click

How do I prepare for this topic?

and we will recommend a few prerequisite topics to help get them ready for it.

step 3 : practice / challenge

At the end of a successful challenge they are awarded a topic badge as

planet ii.

Practice Challenge

'Smart Practice' will hone your children's understanding of new math skills. The difficulty of each question is personalized and automatically adjusted according to the accuracy and consistency of their previous responses.

mathworld

plānet ii.

We want to reward the practice that your children do before a challenge. Each star that they earn during a practice session allows them one incorrect answer during the challenge.

We want to recognize exceptional performance. Your children can earn even more points by beating the standard time in a challenge. They can also earn additional points by completing a challenge beyond their grade level.

TOPIC BADGE

We want to recognize achievements. Your children will have fun collecting badges as they complete topic challenges. Each badge indicates that they have a solid understanding of the topic and that they've met the required standards.

ii-POINT\$ & LEADER BOARD

Congratulations! You have just won a topic challenge and earned more iiPOINTs.

LeaderBoard

Your children can earn enough points to get on the LeaderBoard. Each month the top scorer in each grade will be announced on our website.

Monthly Award

The monthly leader for each grade will be eligible for a special monthly prize.
